

Our Assisted Living Services

Our wide range of services are tailored to individual needs and preferences. The Aspens offers three levels of service. Service levels are determined together with the resident, family members, and supporting healthcare professionals. Service levels are determined prior to move in and evaluated after 30 days. If conditions change, the level of service is adjusted to accommodate additional care needs.

These services may be categorized as follows (please note this is a partial list and is used for illustrative purposes only)

Hospitality

- meals • special diets • laundry
- housekeeping • maintenance
- transportation coordination • social-recreational activities • 24-hour staff
- nurse supervision

Personal Care

- assistance with bathing • dressing
- personal hygiene • mobility
- toileting • eating

Health & Wellness

- nursing assessments
- medication management
- treatments • monitoring chronic health conditions • coordinating third party services (such as physician visits, home health, pharmacy, hospital, therapy, hospice care)

Specialty Care

- memory care • behavior management • wellness & life enrichment • temporary stay (or "respite care")
